

Postdoctoral Position in Random Matrix Theory and Related Fields

The School of Mathematical Sciences at **H.I.T. – Holon Institute of Technology** (Israel) invites applications for a postdoctoral position in random matrices and related fields, funded by the **Israel Science Foundation**. Applicants should have a PhD in Theoretical or Mathematical Physics, or a closely related area of Applied Mathematics.

- The successful candidate will be involved in a number of random-matrix-theory projects led by Prof. **Eugene Kanzieper**.
- Qualified candidates with a **previous research record in random matrix theory** and strong analytical skills are encouraged to submit a letter of motivation, curriculum vitae, list of publications, and contact information of three referees to eugene.kanzieper@hit.ac.il.
- The **initial appointment** will be for **one year** with a possibility of an **extension** for two additional years depending on performance and available funds.
- The **starting date** (October 1, 2024) is negotiable and subject to the security situation in Israel.
- Applications will be reviewed on a rolling basis until the position is filled.
